Cooking guide wow tbc

This page provides a detailed guide to leveling fishing and cooking skills together, for Horde. A similar guide is available for the Alliance. The text is intended for those who have reached level 70 and wants to strengthen these skills together. On this page: This method levels cooking and fishing skills at the same time. There are many different ways to do this. This guide is designed to keep travel time low, not waste lures, and be easy to follow: It doesn't use rare/quest recipes, and doesn't rely on fish that can only be caught at certain times of the day. It does not require +100 lures, but allows fishing without get-aways (except close to 375 fishing skills when there is no alternative). The wizard does not require any special fraction reputation. Note that the enemies of the Steamwheel Cartel cannot complete the Artisan Cooking hunt, so they cannot do more in level than 225 in any way. The guide is optimized for changes in patch 2.4. Most of the dishes you create cannot be sold at auction, so you will lose gold until the final stages of the wizard. Fortunately, Outland fishing and cooking is very profitable, so you should have more than covered the cost of leveling the 375. Remember that the main purpose of this guide is to level fishing and cooking, not to make gold. For gold, read this method. Both fishing and cooking skills level-up in a partially-random way: I can't say exactly how many catches or cooked dishes will be needed. You will find that you have caught more fish than you need to cook because fishing always levels slower than cooking. This gives you a great deal of flexibility to vary from the wizard. The basics of fishing are not covered here. If you prefer to use a more basic fishing rod, use +25 Shiny Bauble lures to the first 20 skill points when moving to new zones. Where +25 lures are recommended, use +50, +100 instead of +75. This wasteful and not recommended. The Pole recommendation is primarily for anglers who will follow this guide to Outland and whose level is high enough to complete Katoom's quest (44+). Those who use the guide up to 300 fishing and about 280 cooking, can probably use lures. Lack of decent fishing gear will only be a major problem in Outland, where the +100 lure would need to be maintained for hours. At the end of this guide, use +100 lures to fish efficiently. Keep an eye on Aquadynamic Fish Attractor when talking to fishing suppliers: They often sell pair each but never sell whole stacks. Alternatively, you can look for +100 Sharpened fish hooks at the auction house. Head north to Thunder Bluff. Fish Fish the pond near Thunder Bluff's auction house and bank until your skills reach 130. Alternatively fish in Spirit Rise. You should catch about 15 Raw Brilliant Smallfish, 65 Raw Longjaw Mud Snapper and 30 Raw Bristle Whisker Catfish. Drive up to the highest of the 3 levels in the central part of Thunder Bluff. Close to the exit of the air traffic controller tower you will find Mistrunners. From Naal Mistrunner (Cooking Supplies) buy Recipe: Brush Whisker Catfish (you can't learn it yet). Cook all your Raw Brilliant Smallfish. This should take your cooking skills to around 55. If you don't reach 50, fish in the pond a little longer. Took Svend Cooking from Aska Mistrunner (Cooking Trainer). Learn the Longjaw Mud Snapper recipe, and cook everything you have. Your cooking prowess will increase to about 115. Learn the Bristle Whisker Catfish recipe, and cook everything you have. Your cooking should be between 125 and 150. If you don't reach 100 cooking with Longjaw Mud Snapper, skip this step for now. You will catch more Raw Longjaw Mud Snapper later. Fly to Shadowprey Village in Desolace. Buy Expert Cookbook from Wulan (Cooking Supplies). Wulan is on top of the tall building on the northeast side of the village (if you're having trouble finding her watch this). If your cooking prowess is high enough, read the book now. If not, learn Expert Cooking later. Cook only Longjaw Mud Snapper if your cooking prowess is still under 100. Cook all the bristles Whisker Catfish you have. Your cooking prowess will hopefully increase close to 175. Skill-ups will come very slowly close to 175. Don't worry if you don't quite do it - there are plenty of Raw Brush whisker catfish in the next zone on the trip. Buy 20 Alterac Swiss from Innkeeper Sikewa (in inn, of course). This is necessary for the upcoming Artisan cooking quest. From MaiLahii (Fishing Supplies), on the pier, buy at least 10 Shiny Baubles (you'll need them later in Feralas). Use your heart's honor to return to Ratchet. Fly to Mudsprocket in Dustwallow Marsh. You may have to fly to Brackenwall Village and head south. Put your heart's honor in Mudsprocket. Find fished inland open water north or east of Mudsprocket. Fish here until your skills reach 225. Head east to Nat Pagle (there's a hole in the rock just east of the Stonemaul Ruins) and complete the Artisan Fishing Quest. This requires 4 quest-only fish to be caught from different locations. Read a full review for Artisan Fishing Quest, with maps of locations »While completing the Artisan Fishing Quest, collect 10 Zesty Clam Meats for the upcoming Artisan Cooking quest. Zesty Clam Meat is always available in a Big-mouth Clam. These can be captured, but killing monsters is much faster. One possibility is to kill Young Murk Thresher, Murk Threshers or Elder Murk Threshers found in the sea around the coast of Dustwallow Marsh. But these creatures can be pretty hard to find. Naga Explorer found on coast northwest of Booty In Stranglethorn Vale can be killed while completing the Artisan Fishing Quest. These are less likely to carry Big-Foot Clam, but are much easier to find. Alternatively, wait until Tanaris, then kill Steeljaw Snappers near Steamwheel Port. Return to near Mudsprocket, and keep fishing inland open water until your skills reach 255. Overall, you'll get about 90 Raw Brush whisker catfish and 140 Raw Mithril Head Trout while fishing in Dustwallow Marsh. Cook Bristle Whisker Catfish until cooking prowess 175, then learn the recipe and cook Mithril Head Trout until cooking prowess 225. Stop cooking at 225 and keep any remaining Raw Mithril Head Trout. Fly to Gadgetzan in Tanaris. Accept the quest, Clamlette Surprise from Dirge Quikcleave (Butcher) in the inn. You still need 12 Giant Eggs that you can get by killing Roc, Fire Roc or Searing Roc in the deserts of Tanaris. Look along the line of large bones that run southwest from Gadgetzan. If Rocs are hard to find, consider traveling north to Felwood and killing Ironbeaks. Owlbeasts in The Hinterlands or Winterspring are also options. None of the required drops are quest items, so you can find them at the auction house. Return to Dirge Quikcleave to learn Artisan Cooking. Cook the remaining Mithril Head Trout until the recipe turns gray. Travel east from Gadgetzan to Steamwheel Port. From Gikkix (Fisherman) buy recipe: Poached Sunravage Salmon and Recipe: Nighthin Soup. You may not be able to learn them yet, but you can learn the recipe: Filet of Redgill you've worn since Booty Bay. Gikkix's other recipes may be useful, but are not necessary for this guide. Return to Gadgetzan. Fly to Camp Mojache in Feralas. From Sheendra Tallgrass (Trade Supplies) buy recipe: Lobster Stew and Recipe: Mighthin Steak. You won't be able to learn these recipes yet! Fall into the lake on the south side of Camp Mojache. Fish until your skills reach 300. Use +25 Shiny Baubles until fishing prowess 275, to stop fish getting away. You will catch a small number of Raw Mithril Head Trout, about 100 Raw Redgill, plus about 90 Raw Nighthin Snapper and Raw Sunscale Salmon combined: The balance between these fish varies by time of day. You will catch some other fish too, which are not necessary for leveling. Cook Redgill, taking your cooking skills to about 260. Finally, learn their recipes and cook Nighthin Snapper and Sunscale Salmon, raising the cooking prowess to about 280. Your cooking skills must reach 275. Fly to Orgrimmar, then take a zeppelin to Grom'Gol Base Camp in Stranglethorn Vale. Fly by wyvern to the Swamp of Sorrows, and finally ride through the portal to Outland. Not far to go now! 1 - 300 Cooking Guia Na sequência do meu guia de Fishing and Cooking combinada, aqui está um guia de 1 a 300 cozimento em linha reta utilizando materiais encontrados em mobs. Come level 300 you will be Master Cook Cooking Guide 300 to 375 Horde First you must be Master Cooking, then go to Baxter at the tavern in Thrallmar and buy the Master Cooking Manual. 300 to 325 Buy a recipe for Ravager Dogs for Cookie One-Eye in Thrallmar (next to the stables) and then go kill the Ravagers around the Falcon Watch until you get about 35-40 meats. 325 to 350 You have two choices in this step. 1). Go buy the Roasted Clefthoof recipe from nula the butcher in Garadar (Nagrand) and then kill the Clefthooves around Nagrand by getting about 35-40 meats or: 2). buy the Warp Burger recipe from The Griika Innkeeper at Stonebreaker Hold (Terokkar Forest) and then kill warp stalkers/hunters around Terokkar Forest by getting about 35-40 meats. 350 to 375 At this point this part and really a problem. The best way to get level 375 is with fishing few Furious Crawdads on one of the 3 lakes in by Terokkar Forest and then cook them. However, these lakes are only accessible by taking the Flying Mount. These 3 lakes are: Lake Jorune - northwest of Stonebreaker Hold. Lake Ere'Noru - southeast of Allerian Stronghold. Blackwind Lake - in the southeast corner of the map, in the Skettis area. You can buy the recipe from Rungor at Stonebreaker Hold. You must also be at fishing skill level 375 so you can fish here. But you can go to Blade's Edge Mountains and find NPC named Matron Varah (she's at the Inn), which gives you a mission to get Raptor Ribs and Flesh Serpent. When it is finished, it will give you a recipe for Crunchy Serpent, which will be green up to level 375. Now you can kill Scawling's surroundings in blade's edge mountains to Serpent Flesh. It will take about 60 to get to 375. Alliance First was supposed to be Master Cooking, so go to Gaston on Honor Hold and buy the Master Cooking Manual. 300 to 325 Buy a recipe for Ravager Dogs from Sid Limbardi in Honor Hold and then go kill ravagers around Falcon Watch until you have &Innkeeper> about 35-40 meats. 325 to 350 You have two choices at this time. 1). Go buy the Roasted Clefthoof recipe from nula the butcher in Garadar (Nagrand) and then kill the Clefthooves around Nagrand by getting about 35-40 meats or: 2). Go buy the Warp Burger recipe from Griika Innkeeper at Stonebreaker Hold (Terokkar Forest) and then kill Warp Stalkers/Hunters around Terokkar Forest by getting about 35-40 meats. 350 to 375 At this point this part and really a problem. Blackwind Lake - in the southeast corner of the map, in the Skettis area. you can buy the recipe at Biribi Innkeeper in Allerian Stronghold. Unfortunately, there doesn't seem to be a way in the Alliance to get crunchy serpent recipe for this mumento, so to level 350 - 375 will be very expensive without the flying mount and without 375 fishing prowess.
